

Bronze Markers

Montage

The Montage marker allows you to tell your loved one's life story in pictures laser cast directly on the marker. You can select up to 6 photos for the design. We recommend purchasing a vase to be installed above the marker rather than having the vase take up design space inside the bronze area.

Impact

The Impact marker allows for an unlimited number of emblems on the marker to memorialize your loved one. A cameo photograph is included and handwritten signatures or a poem can be used.

Crowncrest

This is the traditional bronze marker. Classic and basic, the Crowncrest has a variety of borders including the rose, dogwood, floral, wheat, or pine. It allows you to include one Emblem along with the name and dates of your loved one. It can be purchased with or without a vase.
